

## Student and Family Privacy Rights

The parent or guardian will choose all options that apply and submit the appropriate signed form(s) to the student's school admissions office.

Option #1

### GENERAL ACCESS TO PHOTOGRAPHS AND VIDEOS OF STUDENTS

**(All grade levels; does NOT refer to yearbooks; does NOT refer to video, photo or other electronic recordings created and maintained by NKEC or the school for behavior, security or safety reasons)**

Students may occasionally appear in photographs and videotapes taken by school staff members or other authorized officials. NKEC or the school may use these images in various publications, including the school newspaper, newsletter, social media sites, and on school websites; the students may be identified by name with their image. In addition, while the school limits access to the school buildings by outside individuals, there may be occasion when news media, photographers or other outside entities take photographs or videotapes of students while on school grounds. School staff members may provide the names of students to members of the media, photographers, and other outside entities at the discretion of school administrators.

If these terms are not agreeable, the parent/guardian should indicate this by signing below and submitting this form to the child's school admissions office.

**I do NOT allow NKEC or the school to release the name of my child and their image (photographic or video) in NKEC/school print publications such as newsletters, or to outside public relations entities such as the news media.**
